OPERATION FIGHTBACK: ONWARD CHRISTIAN SOLDIERS!

When hate preacher Anjem Choudary announced a demonstration against Christian militias in the Central African Republic who are fighting back against years of Muslim attacks, Britain First mobilised its London and Kent units. However, for the second time running, the brave jihadist Anjem Choudary failed to show up in the face of Britain First opposition (the first time was the protest on the Edgware Road).

Despite torrential rain and appalling wind, a group of our activists showed up to show the Muslim radicals they are not welcome and we have had about enough of them on our streets. A bearded mob of Muslim fanatics turned up screaming "Allahu Akbar" and holding placards reading "Islam will dominate the world!"

Unperturbed by the dreadful weather, and in response to an innocent passerby being attacked by the Muslims assembled, our activists grabbed their union jack flags and at a signal, charged the Muslim protest in defiance of the police!

Pandemonium soon broke out, and unfortunately two of our brave activists were arrested and taken to Wandsworth Police Station. However, none of the Muslims, even those responsible for

street, and the patriots of Britain First turned out in force to remember the fallen hero as well as see that his killers were handed the sentences they deserved.

Despite his refusal to condemn the killers of Lee Rigby, notorious hate preachers Anjem Choudary and Abu Izzadeen held a recruitment "roadshow" in the heart of Muslim East London a few weeks later and again the only group to oppose them was Britain First. On the Muslim side was infamous hate preachers Abu Izzadeen and Anjem Choudary, flanked by dozens of hostile Muslim activists and young kids holding Al Qaeda flags.

Then, Britain First exposed Al Qaeda terrorist Sajeel Shahid, who was living anonymously in Essex. We turned up at his door, leafleted his neighbours and a few days later, chairman Paul Golding was arrested by Essex police!

Britain First's 'Operation Fightback' is relentless in opposing the hate preachers and extremists, and it will continue until they have been driven off the streets!

attacking the innocent passer-by, were arrested.

The police bias on the day sickened our activists and despite witnesses and a statement to camera, they refused to arrest the violent Muslims who attacked the passer-by.

A few weeks later saw the sentencing of the vile creatures who murdered hero Lee Rigby in cold blood on a British

BRITAIN FIRST LAUNCHES ACTIVITIES ACROSS THE NORTH OF ENGLAND

The problem of Muslim paedophile grooming gangs is well known in Britain. In Muslim grooming hotspots, such as Bradford, Luton, East London, Birmingham, and many more, groups of Muslim men lure young English girls (some as young as 12) with cash, alcohol, drugs, meals and mobile phone credit and coerce them into a nightmare world of sexual exploitation.

Britain First recently launched a new direct action campaign against the scourge of Muslim paedophile grooming gangs, starting in the town of Blackburn. Several teams of Britain First activists visited hotels, guest houses, taxi firms, off licences, mosques and finally the Mayor of Blackburn's private residence to pile on the pressure in the town.

The whole concept is that if we can make hotel owners and off licence traders etc. think twice about providing goods to Muslim men who appear to fit the bill of your average groomers, then it narrows the field for Muslim paedophile gangs.

If we sustain the campaign long

enough and visit enough towns, then it will dent the problem of Muslim grooming gangs operating freely.

We were all surprised by the positive reception we received from staff and proprietors of hotels, off licences, taxi firms etc, and several pledge to brief their staff and to keep their eyes peeled to help tackle this terrible problem.

Then only a week later, we held another "Day of Action" in the North

West of England that saw our units visit multiple mega mosques as part of our campaign.

Our fightback team visited mosques in Bolton, Oldham, Rochdale and Burnley as our campaign to raise awareness and pressure the Muslim community gathered pace.

Hundreds of items of literature were distributed to imams and residents of Muslim areas by our brave and resolute activists. Our activists had many interesting heated conversations inside the precincts of certain mosques with Muslims and imams.

The "Day of Action" ended in

Burnley when the Britain First team visited the home address of Gordon Birtwistle MP, who recently condemned Britain First in the Lancashire Telegraph and said we were not "welcome" in his constituency.

Britain First now has multiple units in the North of England and recently we held a meeting in Yorkshire attended by a horde of new activists who resolve to expand our campaigns in the region.

WHY DO THEY HATE VLADIMIR PUTIN?

In the wake of Crimea's independence referendum, Hillary Clinton described Russian President Vladimir Putin as a "new Hitler." The western mainstream media echoes this childish name-calling. Why is the whole western foreign policy establishment so afraid of Putin?

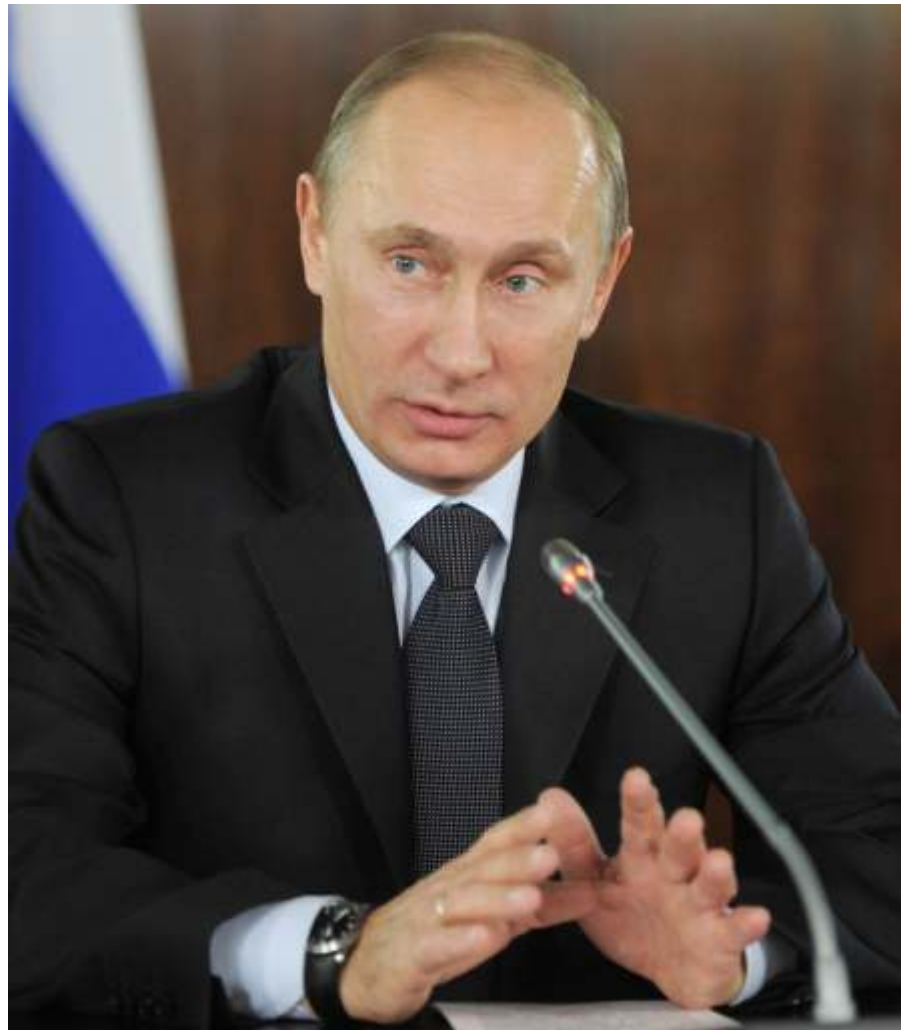

Firstly, Putin is standing up against western aggression, not only in Ukraine, but also in Syria and Iran. Ongoing western attempts to destabilize these and other countries are just the most recent examples of a decades-old pattern of destroying traditional nations and values, and their replacement with a politically correct and quasi-Marxist "New World Order."

The CIA did it to Iran's democratically-elected Prime Minister Mossadegh in 1953, to Indonesia's President Sukarno in 1965, and to Chile's Prime Minister Allende on September 11th, 1973. They did the same thing to Ukraine's legitimate president, Viktor Yanukovich, a few weeks ago.

Crimea is and always has been a part of Russia, for hundreds of years. It is populated by Russians, and over 95% of them have voted to return to Russia. Crimea was only "given" to Ukraine in 1991. So why the big fuss from the West?

Today, the Americans and their NATO allies seem less interested in installing puppet governments than in reducing entire nations to chaos. The CIA-NATO coup against Gaddafi has destroyed Libya as a modern nation-state. Libya is now a jihadist run hell hole. Western-backed false-flag terror in Iraq is splitting up that country. Syria is being decimated by a Western-backed attempt to overthrow Assad. Venezuela, too, is being destabilized by a CIA-backed coup effort.

In short, the New World Order is trying to overthrow every leader on earth who resists, elected or not. Russian President Vladimir Putin is resisting. That is why the western propaganda machine is calling him nasty names. He

is not a banker, a corporate mogul, a media hack or a corrupt politician - he is the anti-Christ to our western elites! It is worth noting that Russia and Iran are the two nations most successfully resisting regime change.

President Putin enjoys overwhelming popularity in Russia due to his defense of traditional and religious values. In his State of the Nation address last December, Putin said: "Many Euro-Atlantic countries have moved away from their roots, including Christian values... Policies are being pursued that place on the same level a multi-child family and a same-sex partnership, a faith in God and a belief in Satan."

Putin has made Russia a strong, united and prosperous country and he has built it up outside of the western corporate-banking system. He is also a strong uncompromising patriot who loves his country, puts his own country first, rejects multiculturalism and is fighting back against Islam (Moscow's mayor recently limited the number of mosques in that city to only four).

We are facing an epic struggle between those who espouse sacred values such as justice, decency, nation, identity, traditions, culture versus those who wish to destroy such values, and Putin is on the frontline.

BRITAIN FIRST LAUNCHES 'CHRISTIAN' PATROLS

In response to the infamous "Muslim Patrols" in East London, Britain First recently launched our own "Christian Patrols". Our first outing in East London saw several units of Britain First activists spend several hours handing out "Christian Patrol" leaflets in places such as Brick Lane and outside the East infamous London Mosque.

This campaign to counter and oppose the notorious Muslim patrols, where revellers have had alcohol confiscated and women have been harassed, will be on-going.

The Muslim patrols are still taking place all across East London and we intend to oppose them every step of the way! While out on patrol, there were several brief confrontations where Muslims told our units to get out of "their area" - but these demands were laughed off as East London is still British soil!

It is not an understatement to say that Britain First caused an international storm with our Christian Patrols in East London. The publicity was gargantuan: The Express, the Daily Mail, East London Times, LBC, Al Jazeera, London24, Russia Today, the International Business Times, London Evening Standard, all the London locals and even the Malaysia Chronicle all covered the story!

On the second outing in East London, as soon as our convoy passed through the Blackwall Tunnel, we were swooped on by the police who knew what we were doing.

The police knew everything, and no less than 20 of them were stationed outside East London mosque and the same number in Brick Lane, but we weren't deterred in the slightest. The heavy police presence was likewise reciprocated by several media teams

following our convoy and our activities, especially around the Brick Lane area.

Following these activities, Britain First featured in several international news bulletins, especially in Russia, where we enjoyed prime time coverage on their main broadcasting channel.

BRITAIN FIRST HOLDS FIRST "BRITANNIA BALL"

The first "Britannia Ball" flag presentation social night took place in March in the town of Dartford, Kent. The event took place as a way of honouring the commitment of our activists from our Kent battalion.

The evening included a disco, a buffet and a marching band, the unit flags presentation and an awards ceremony. Unit flags were given out to Kent "A. Company" and "B. Company".

The next "Britannia Ball" will take place on St. George's Day for several other units around the country. These events are the "glue" that binds our brave activists together.
